Principauté de Monaco
Grimaldi Forum

HONOURING BRAZIL
With One-Day GLOBAL ANTI-AGING PROGRAM
By Brazilian Experts in AESTHETIC & ANTI-AGING
Honorary President
Prof. Ivo PITANGUY
Satisfy the desire for lasting beauty

Azzurrol® is indicated for the treatment of glabellar lines1

- Fast onset of action (2-3 days)1
- Long duration of action (up to 5 months)1
- High level of patient satisfaction with treatment every 6 months2
- Well established safety profile1-3

NAME OF THE MEDICINAL PRODUCT: Azzurrol, 10 Sperry units/0.01mL, powder for solution for injection. QUALITATIVE AND QUANTITATIVE COMPOSITION: Botulinum toxin type A 10 Sperry units/0.01mL of reconstituted solution. Vial of 122 units. Collagen botulinum toxin A haemagglutination complex. âOne Sperry unit (U) is defined as the median lethal percutaneous dose in mice (LD50). The Sperry units of Azzurrol are specific to the preparation and are not interchangeable with other preparations of botulinum toxin. Excellent: human albumin 230mL, lactose monohydrate. CLINICAL INDICATIONS: Azzurrol is indicated for the temporary improvement in the appearance of moderately to severe glabellar lines (vertical lines between the eyebrows) seen at frown, in adult patients over 18 years, when the severity of these lines has an important psychological impact on the patient.

PHYSIOLOGY AND METHOD OF ADMINISTRATION: Prior to injection, the product should be reconstituted. Remove any make-up and disinfect the skin with a local antiseptic. Intramuscular injections should be performed at right angles to the skin using a sterile 30G needle. The recommended dose is 10 Sperry units (0.25 mL of reconstituted solution) of Azzurrol to be divided into 5 injection sites. Ten Sperry units (0.01 mL of reconstituted solution) are to be administered intramuscularly into each of the 5 sites. 2 injections into corrugator muscle and 1 into the procerus muscle near the nasolabial sulcus. The anatomical landmarks can be more easily identified if observed and palpated at maximal frown. Before injection, place the thumb and index finger firmly below the orbit to prevent extravasation below the orbit. The needle should be pointed upwards and medially during the injection. In order to reduce the risk of pooling, avoid injections near the lateral palpebral sulcus or muscle, particularly in patients with large brow-sagging complexes (brow ptosis). Injections into the corrugator muscle must be made into the central part of that muscle, at least 1 cm caudal from the ciliary rish. The treatment interval depends on the individual patient's response after assessment. In clinical studies, an optimal effect was demonstrated for up to 4 months after injection. Some patients were still responders at 6 months (see section 5.1). Treatment interval should not be more frequent than every three months. In the event of treatment failure or diminished effect following repeat injections, alternative treatment methods should be considered. In the case of treatment failure after the first injection session, the following alternative treatments may be considered: Analysis of the causes of failure, e.g. incorrect muscles injected, incorrect technique, and formation of neuromuscular antibodies; Re-evaluation of the relevance of treatment with botulinum toxin A. The safety and effectiveness of Azzurrol in individuals under 18 years of age have not been demonstrated.

CONTRAINDICATIONS: Azzurrol is contraindicated in individuals with a known hypersensitivity to botulinum toxin A or any of the excipients of the formulation. In the presence of infection at the proposed injection site; In the presence of myasthenia gravis, Eaton-Lambert Syndrome or Amyotrophic lateral sclerosis. SPECIAL WARNINGS AND PRECAUTIONS FOR USE: Azzurrol should be used with caution in patients with a risk of, or clinical evidence of, marked defective neuro muscular transmission. Such patients may have an increased sensitivity to agents such as Azzurrol, which may result in excessive muscle weakness. Adverse reactions possibly related to the distribution of the effects of the toxin to areas remote from the site of administration have been reported rarely with botulinum toxin. Patients treated with therapeutic doses may experience exaggerated muscular weakness. Injection of Azzurrol is not recommended in patients with a history of dizziness and aspiration. Patients or caregivers should be advised to seek immediate medical care if swallowing, speech or respiratory difficulties arise. The recommended dose and frequency of administration for Azzurrol must not be exceeded. It is essential to study the patient's facial anatomy prior to administering Azzurrol. Facial asymmetry, ptosis, excessive dermatomelia, scarring and any alterations to this anatomy as results of previous surgical interventions should be taken into consideration. Caution should be taken when Azzurrol is used in the presence of inflammation at the proposed injection site or when the targeted muscle shows excessive weakness or atrophy. As with all intramuscular injections, at greater needle injector frequent and at higher doses may increase the risk of antibody formation. Clinically, the formation of neutralising antibodies may reduce the effectiveness of subsequent treatment. The effect of administering different botulinum toxins during the course of treatment with Azzurrol is unknown and must be avoided. This product contains a small amount of human albumin. The risk of transmission of an infection cannot be excluded with absolute certainty following the use of blood products. It is mandatory that Azzurrol is used for one single patient treatment only during a single session. Particular precautions should be taken for pediatric preparation and administration as well as for the indication and dosage of the remaining unused solution. Immediately after use and prior to disposal, reconstituted Azzurrol (in the vial or in the syringe) should be maintained at 2°C to 8°C a maximum of 24 hours. The solution should be used within 24 hours after reconstitution. The solution should be administered within the first week following injection and a repeat. Most of these reactions reported were of mild to moderate severity and were reversible. Very common: headache, injection site reactions (e.g. erythema, oedema, induration, rash, pruritus, pain, sensitivity, pain, discomfort, stinging). Common (>1/10 to <1/100): facial paralyse (prevalently temporary muscle paralyse), paresthesia, Athetosis, Pruritus, Eosinophilic oedema, lacrimation increased, photophobia, dry mouth, photophobia, rhinitis, blisters, urticaria, angioedema. Rare (<1/10000 to <1/1000): eye movement disorder, Unicar. PHARMACODYNAMIC PROPERTIES: The pharmacodynamic effect of botulinum toxin type A is due to chemical denervation of the targeted muscle resulting in a measurable decrease of the compound muscle action potential, causing a localized reduction of, or paralysis in, muscle activity. SHELL FILLER: 2 years. Reconstituted solution: 4 years at between -2°C and 8°C. SPECIAL PRECAUTIONS FOR STORAGE: Store in a refrigerator (2°C-8°C). Do not freeze. MARKETING AUTHORIZATION HOLDER: Ipsen. DATE OF FIRST AUTHORISATION: 22 January 2009. For a complete information, you should consult the national published prescribing information.

*According to the treatment improvement in the appearance of moderately to severe glabellar lines (vertical lines between the eyebrows) seen at frown, in patients below 65 years, when the severity of these lines has an important psychological impact on the patient.

Dear Colleague, Dear Participant,

On behalf of the Organizing Committee, it is a great privilege to invite you to participate to the 8th Anti-Aging Medicine World Congress in Monte-Carlo from April 8 to 10, 2010, held under the High Patronage of S.A.S. Le Prince Albert II de Monaco.

The Congress’s Scientific Committee has invited a distinctive array of International Experts in Anti-Aging Medicine and Aesthetic Surgery and Dermatology, to share with you, during 3 days, the latest information and techniques on these fields.

Honouring Brazil!

Willing to develop the intercontinental exchanges and to offer the most exciting scientific content to the attendees, the Anti-Aging World Congress organisation wanted to honour Brazil, a truly amazing country. Therefore Brazilian Experts from all anti-aging disciplines will present a full One-Day Brazilian program in Aesthetic Dermatology, Surgery and Preventive and Well-aging medicine.

We are extremely proud to welcome Professor Ivo Pitanguy as the Honorary President of the AMWC 2010.

In addition, and taking into account the demand of the public for safe therapies to look and feel better and younger, the AMWC 2010 has prepared an important program of educational sessions combining SAFE Anti-aging practice with non-invasive aesthetic techniques.

The aim: offering to the physicians from Aesthetics, General Practice and other Specialties, a strong scientific base to prevent aging and help people who are already healthy to become even “healthier”.

Following last year’s success, a new Lottery Prize of an 8000 euros value and many other prizes will be available to all participants during the congress. Do not miss the prizes’ draw on TEOXANE’s booth, Saturday April 10 at 4.00 pm.

We would like here to renew our great thanks to the Medical Companies and Manufacturers of the Industry for their continuous support and increasing participation to the AMWC’s meeting to progress forward together and contributing to its success.

Highlighting the event, it will be our pleasure to welcome the delegates to the stunning “Salles des Etoiles” of the Monte-Carlo Sporting Club for an unforgettable Gala Dinner and Show on Saturday evening.

We hope that you will enjoy the Congress and that your interaction with your colleagues from so many different countries will promote a creative exchange of ideas and will be personally rewarding for each of you.

We also hope and trust that you will enjoy your visit into the very exclusive Principality of MONACO!

Very Sincerely Yours,

The Organizing Committee
Friday **vendredi** 9th April

**PROGRAM—AT-A-GLANCE**

**AUDITORIUM PRINCE PIERRE**

**LEVEL -2**

**PLENARY SESSION AESTHETIC**

**THE SCIENCE OF BOTULINUM TOXINS**

8:30 - Introduction: Understanding the scientific aspects behind the practical aspects

9:30 - Scientific and practical comparison of the different botulinum toxins
  - ALLERGAN (Vistabel®)
  - GALDERMA (Azzalure®)
  - MENTOR (Puretox®)
  - MEDITOX (Neurotox®)
  - MERZ (BoCouture®)

9:45 - Increased revenue for happy clients

10:30 - Refinements in breast aesthetic surgery

**PLENARY SESSION ANTI-AGING MEDICINE**

**CARDIOVASCULAR PROGRESSION**

9:30 - How to estimate and reduce the cardiovascular risk in 2010?

9:45 - The cardiovascular diseases: Evolution of a pandemic: The true figures

10:00 - The point on current physiopathological mechanisms leading to the arterial disease

10:15 - The new biological parameters of evaluation of the cardiovascular risk

10:30 - Ageing and arterial disease: How to estimate it in practice

10:45 - Future prospects in the screening and the treatment of the diseases

11:00 - Increasing revenue for happy clients

11:15 - A global tour of Medisps

11:30 - Meet the Experts about the dangers of facial injections (additional registration required)
  (ROOM LE GUELFE)

11:45 - Consultation; the Brazilian way

12:00 - Understanding the endothelial protection

12:15 - Role of vitamins and mineral on the relation to health and well-being

12:30 - Review of the present knowledge on gut microbiota composition

12:45 - The role of the prepictic effect

13:00 - Review on both experimental and human studies on the potential of prebiotics and probiotics in the management of IBD

13:15 - How I manage my Anti-Aging consultation

13:30 - Why Intestinal Flora balance is different?

13:45 - Role of vitamins and mineral on the relation to health and well-being

14:00 - How the Brazilian way to inject Botulinum Toxins: 7 years of follow-up

14:15 - Photo Dynamic Therapy (PDT) for facial rejuvenation

14:30 - Localized Fat: How we use phosphatidylcholine & deoxycholate

14:45 - Hair restoration: New techniques for optimal results

15:00 - Lasers resurfacing in darker skins

15:15 - Fractional Er:YAG laser: As an advanced epidermal penetration

15:30 - Laser-layering technique and modalities

15:45 - Erbium:YAG resurfacing

16:00 - Light-Emitting Diodes: Clinical discussion on particular medical "bright" tool

16:15 - Past, present and future of laser therapy (LLLT): Age-related macular degeneration, neck pain

16:30 - Future developments in Low-level photo-thermal tissue-rejuvenation

16:45 - Fractional CO2 laser skin resurfacing: From traditional to "illusion or reality?"

17:00 - Cellulite and slimming creams: IIllusion or reality?

17:15 - The beauty of the foot

17:30 - The mid-face rejuvenation with Botulinum Toxin: My experience

17:45 - New BTX-A neurotoxins, new indications, diffusion profiles

18:00 - Making the best of botulinum toxin: An update

18:15 - French experts consensus for the use of botulinum toxin: 7 years of follow-up

18:30 - Botulinum toxin in men: What is different?

**PERFECT MEDICAL SPA**

**LEVEL -2**

**PLENARY SESSION AESTHETIC**

**NEW TRENDS IN BRAZILIAN COSMETIC DERMATOLOGY**

8:30 - Overview and State of the Art of the cosmetic dermatology in Brazil

8:45 - Brazilian way to inject Botulinum Toxins and fillers

9:00 - Photo Dynamic Therapy (PDT) for facial rejuvenation

9:15 - Localized Fat: How we use phosphatidylcholine & deoxycholate

9:30 - Hair restoration: New techniques for optimal results

9:45 - Lasers resurfacing in darker skins

10:00 - Fractional Er:YAG laser: As an advanced epidermal penetration

10:15 - Laser-layering technique and modalities

10:30 - Erbium:YAG resurfacing

10:45 - Light-Emitting Diodes: Clinical discussion on particular medical "bright" tool

11:00 - Past, present and future of laser therapy (LLLT): Age-related macular degeneration, neck pain

11:15 - Future developments in Low-level photo-thermal tissue-rejuvenation

11:30 - Fractional CO2 laser skin resurfacing: From traditional to "illusion or reality?"

11:45 - Cellulite and slimming creams: IIllusion or reality?

12:00 - The beauty of the foot

12:15 - The mid-face rejuvenation with Botulinum Toxin: My experience

12:30 - New BTX-A neurotoxins, new indications, diffusion profiles

12:45 - Making the best of botulinum toxin: An update

13:00 - French experts consensus for the use of botulinum toxin: 7 years of follow-up

13:15 - Botulinum toxin in men: What is different?
Programm - At a Glance

Saturday, April 10th

7:00

Registration and Badge Pick-Up

8:30

Plenary Session Aesthetics

- Best of the Periorbital Area Rejuvenation
  - Understanding the periorbital anatomy to avoid complications
  - Minimally invasive surgical techniques of the periorbital area
  - Minimally invasive technique for repositioning the eye brow
  - Making the best of botulinum toxin in the periorbital area

9:30

- Making the best of fillers in the periorbital area (dark circle, brow, tear trough)
- Laser & new techniques to enhance volumes, wrinkles and spots.
- Aging control around the eye with chemical peels

10:30

- 10:30 - 11:00 Refreshments break in the Exhibit Hall

11:00

Plenary Session Aesthetics

- New trends for dermatological surgeons
  - New trends to treat photo-aging
  - Facial rejuvenation: The eye and lips as a central focus for facial rejuvenation
  - Platelet Rich Plasma (PRP) therapy

12:00

- Pigmentary disorders therapies (melasma, vitiligo)
- Non invasive body contouring and skin tightening
- New trends in peeling procedures
- Vascular disorders therapies

12:30

- Lunch break

13:00

Plenary Session Anti-Aging Medicine

- Neurotransmitters screening in 2010, how to do?
  - The 4 brain musketeers: Acetylcholin (ACH) - GABA (γ-aminobutyric acid)
  - Dopamin - Serotonin
  - Neurotransmitters and hormones
  - Neurotransmitters and nutrition

14:00

Plenary Session Anti-Aging Medicine

- Genetics & Nutrigenetics
  - How to use cutting edge genomic testing in your practice
  - Main indications for advanced genomic testing and which markers to be used
  - How to communicate with the patient: FAQ
  - Interpretation of genomic results and practical recommendations
  - Clinical cases: How genomics can revolutionize your health management

15:00

Plenary Session Anti-Aging Medicine

- Full Management of the Weight
  - Breast and Beauty
  - Brazilian style
  - American style
  - European style
  - Japanese style
  - The rest of the world

16:00

Plenary Session Anti-Aging Medicine

- Skin & Anti-Aging
  - Impact of the physiology on the aesthetic outcome
  - How to improve dermatological cosmetic treatments by internal treatments
  - Enhance skin aspect and quality with anti-aging treatments

16:30

- How to move a tip
- Botulinum Toxin and nose: Is it really effective?

17:00

- Medical rhinoplasty: How to select the right patient according to the anatomy
- Full medical rhinoplasty: Myth or reality?

17:30

- The "one-touch" rhinoplasty. Small details that make a big difference
- Aesthetic repositioning of the nasal tip
- How to move a tip
- Botulinum Toxin and nose: Is it really effective?

18:30

- Making the best of Botulinum toxin in the periorbital area
- Laser & new techniques to enhance volumes, wrinkles and spots.
- Aging control around the eye with chemical peels

WOSAMM Board Examination Anti-Aging - Nutrition

20:30 pm

"Forever Young" Gala Evening at the Sporting Club of Monaco - Do not miss this unforgettable event!
The WOSAAM (World Society of Anti-Aging Medicine), considered as the fastest growing scientific society (over 5000 physicians from 120 nations in the clinical specialty of anti-aging medicine) proposes two Board Certification Examinations:

- NUTRITIONAL MEDICINE
- ANTI-AGING MEDICINE

Your position as a WOSAAM Board-Certified will enhance your status in the eyes of your patients and colleagues with a titled position in a major international scientific society.

Modalities: Register and receive the learning material to prepare the examination.

Previous to the exam an expert will present a 2 hours Review on the main topics of the certification.

NEXT EXAMINATION SESSIONS:

MONACO, April 10, 2010 during AMWC

More info: www.wosaam.org

BECOME A WOSAAM BOARD CERTIFIED PHYSICIAN IN ANTI-AGING MEDICINE & NUTRITION! – Certification Fee: 1450 Euros

E2E INJECTION ACADEMY

Wednesday April 7
- Ageing process (video and studies)
- Anatomy (PDF presentation)
- Carrying out Botulinum toxin injections
- HA injection review : from mesotherapy to ultra deep. Clinical cases (how to evaluate a face? Which area to inject, with which product, to fulfi the patient’s demand?)

Saturday April 10
- The key rapport between anatomy and your injections of botulinium toxin
- Anatomy of the dangers with deep injections for the face
- Lower face and upper face
- Aim: Learning where the muscles are and which points of injection are

Interactive round table with Leading International Experts

E2E SMART LUNCHEON WORKSHOPS

Interactive round table with Leading International Experts

Friday April 9 - Expert Botulinum Toxin
- The key rapport between anatomy and your injections of botulinium toxin
- Aim: Learning where the muscles are and which points of injection are used by the Experts?
- Lower face and upper face

Saturday April 10 - Expert Deep and Volumetric injection
- Anatomy of the dangers with deep injections for the face
- The key rapport between HA and deep injection
- How to improve your regional anaesthesia?

E2E - 2 Smart Luncheon Workshops on April 9 and 10 ONLY

About Our Book
Anatomy and Botulinum toxin injections
F. INGALLINA
P. TREVIDIC

This book is aimed at Beginners and Advanced Experts in botulinum toxin injections. We based this book on our extensive research on face anatomy carried out by our team of Experts.

We performed numerous dissections to provide high quality information on each muscle and their injection points and adequate botulinum toxin units.

Precise location of the injection is one of the most difficult goal to achieve a reliable successful treatment for each patient. Our scientific work provides this key.

The book and its 1 hour DVD in 5 languages all physicians to understand very clearly the anatomy of the face and to improve their knowledge on reliable botulinum toxin injection.

EXACTLY WHAT MEDISPA VENDORS & SUPPLIERS WANT

Through networking and after evaluation with spa and medical aesthetics vendors and the corresponding facilities worldwide about what they really want in a trade event, we propose to put a new face on the traditional trade shows for the new reality that offers both vendors and buyers the most ROI possible on every level, both being the most cost effective, and highly profitable.

This is exactly what we have done in creating Medical, Aesthetics, & Spa Marketplace!

The Marketplace Rendezvous – Each participant will be given 20 intimate face-to-face 20 minute selling appointments with buyers from facilities that need to buy their products. Buyers and vendors will be pre-interviewed to give maximum value by matching up both parties for each meeting.

The Spa & Medical Aesthetics Marketplace – A trade space with a limited number of vendors dedicated to offering the many categories and products the attending buyers want and need to buy.

Ask the organisers for more details about the Marketplace opportunity!
**Registration Form** - To be sent by fax to +33 (0)156 837 805 (from America dial 011 33 1 56 837 805)

**PLEASE TYPE IN CAPITAL LETTERS**

**REGISTRATION FORM**

Registration fees include: access to chosen sessions, workshops and commercial exhibit, coffee breaks, certificate of attendance, congress bag and conference book.

CONGRESS LOCATION
The Principality of Monaco is located on the French Riviera, about 25 minutes from Nice. Its exceptional location allows it to enjoy 310 days of sunshine per year. Monaco's exceptional location, between mountain and sea, its gardens, its entertainment, its athletic and cultural events all qualities which make it an unforgettable destination. The Grimaldi Forum, close to all the hotels, is ideally located by the seaside. The average temperature in April is 20-22°C and the weather is often sunny.

VISA INFORMATION AND OFFICIAL LETTERS OF INVITATION
The passport and visa requirements for persons visiting Monaco as tourists are the same as for France. For further details, contact any French consulate in your country. Official letters which may be necessary in some countries for administrative reasons (VISA) can be sent by e-mail: log on www.euromedicom.com. These letters do not engage the congress secretariat to any financial support neither obligation or responsibility relative to the Visa.

EXHIBITION
Over 6500 m² exhibit (250 exhibiting companies) of interest in Aesthetic Dermatology and Medicine, Plastic and Cosmetic Surgery, Anti-Aging Medicine, Nutrition, Well Being, Medical Spa, etc. will be on permanent display.

AIR TRANSPORTATION
IDENTIFIER CODE: 0826S - Valid for travel from 03/04/2010 to 15/04/2010
The airlines of SKYTEAM, Official Alliance Partner for our event, offer attractive airfares for participants. SKYTEAM comprises 10 leading international airlines: Aeroflot, Aeromexico, Air France, Alitalia, Continental, CSA Czech Airlines, Delta, KLM, Korean Air, Northwest Airlines, serving 728 cities in 149 countries with over 15 000 flights daily. To benefit from these special offers, link up with www.skyteam.com/global/meetings and quote the Identifier Code. Through this site you can also access the schedules of all SkyTeam partners to plan your flights on the airline of your choice.

AIR FRANCE: Discounts are applied to a wide range of airfares, in all classes of travel (Espace Première [First], Espace Affaires [Business] and Tempo [Coach]) on all flights of the Air France worldwide network. To accse the preferential fares granted for this event, use this link: www.airfrance.com/globalmeetings.

This present document of the event serves to justify the application of the preferential airfare. Keep it with you as you may be asked for it at any point of your journey. To locate your nearest Air France sales point, consult: www.airfrance.com

LANGUAGES – SIMULTANEOUS TRANSLATION
The official congress languages are English and French. Simultaneous Translation in French, English, Spanish, Italian and Russian will be provided in the 2 main rooms. French/English in the other rooms.

"AMWC 2010 GRAND PRIX" LOTTERY
A entertaining LOTTERY, will offer the participants of the AMWC 2010 the possibility to win two journeys of respectively 5000 euros and 3000 euros and many other prizes (like full supported Congress Packages including hotel and registration).

WOSAAM MEETING: Open to Medical Scientific Societies and Associations Representatives
The WOSAAM – World Society of Anti-Aging Medicine will organize a private meeting for representatives of all medical national and International scientific associations involved in the field of Well-Aging medicine.

This meeting will take place during the Anti-Aging Medicine World Congress 2010 on Friday April 9th at the congress place.

IMPORTANT: To join this private meeting it is necessary to be the President or an officially mandated representative of the medical or scientific Association. To get your INVITATION, please send your request and personal information by fax: +331 56 837 805 or email: contact@wosaam.org

Booking cannot be processed without total prepayment – All prices are breakfast and taxes included.
Other hotels will be proposed later. Please regularly log on: www.euromedicom.com

REGISTRATION FORMALITIES
Registration confirmation
Each attendee registered in advance will receive a confirmation of registration by the congress office. Please bring a copy of your registration confirmation letter to on-site registration to speed up the process. If you do not have a confirmation letter and there is no record payment receipt by the congress office, you will be required to provide payment on-site, even if you think a payment was remitted previously. Any duplicate payment resulting will be resolved following the meeting.

On-site registration and badge and congress material pick-up
The congress office registration desk will be located in the Grimaldi Forum at the Diaghilev level. Please keep in mind that on-site-registration can be time consuming. Everyone is strongly encouraged to register prior to March 15, 2010 deadline in order to avoid delays, and having to pay a higher registration fee. You are reminded to bring your confirmation letter with you when you pick up your badge and meeting material. We recommend that attendees allow sufficient time to pick up their badges prior to the meeting, to avoid the last minute lines that may result in a missed session.

Please wear your badge!
Attendees are required to pick up and wear their conference badges at all times throughout the meeting. No access into the Venue and Congress sessions will be allowed without wearing the badge. This allows us to ensure adequate security for your safety. If you misplace your badge, a 150 Euros fee will be charged to replace it.

Cancellation
We will refund the complete registration fee with a 50 Euros processing fee if written cancellation reaches us before March 5, 2010. We will refund 70% of the total payment if written cancellation reaches us before March 26, 2010. After this date no refund will be possible. No refund will be made for no-shows or early check-out date.

GROUND TRANSPORTATION
Between Nice airport and Monaco a free shuttle service will be provided by the organization to all participants from Nice airport (Terminal 1 and 2) on April 7th and 8th. In Monaco by showing their badge, AMWC delegates will have free access to the bus network in Monaco all the meeting long (April 8, 9 and 10).

FOREVER YOUNG... THE GALA EVENING YOU WILL REMEMBER!!!
For this 8th edition of the AMWC, we have again the exceptional chance to organize the Gala Evening at the Salle des Etoiles of the Sporting Club of Monaco. on Saturday April 10th.
We have prepared for you an unforgettable show you will enjoy around a delicious dinner. After the Show, let's dance... and feel Forever Young!!!
